PROFILE

Multi-disciplinary digital creator and engineering student working across digital products, video post-production, websites, and practical business systems. I build and manage real-world digital products, edit and finish commercial video, and develop digital infrastructure from concept through deployment. My work combines technical problem-solving with visual craft, with a focus on reliable, usable systems rather than unnecessary complexity.

SELECTED WORK

ExamFlowOS · Founder / Designer / Developer

- Live exam-preparation and CBT platform for students across Andhra Pradesh and Telangana. Designed and developed the product, UI/UX, CBT experience, exam database, SEO structure, deployment, and ongoing maintenance. **10K+ total users** and **~700 active users**.

Annapurna Foundation · Digital & Creative Contributor

- Contribute to the organisation's digital presence through **website development and management, deployment, video editing, and post-production**. Work includes presenting initiatives such as Project Annapurna, Project GoSeva, Project Saraswati Devi, and Project Street Dogs.

Sri Lahari Studios · Digital Systems & Creative

- Built and managed the studio's digital presence, including **website, branding, visual design, Instagram presence, SEO, client-facing systems, and workflow improvements** for a real photography/video business.

Perfect Pack · Creator — In Development

- **\$10** creative resource product for **DaVinci Resolve Studio**, focused on motion-design assets, titles, graphics, backgrounds, macros, and reusable post-production resources.

PROFESSIONAL EXPERIENCE

Video Editing & Post-Production · 700+ client video projects

- Short-form content, commercial edits, creative productions, motion graphics, **color grading, colorist work**, finishing, and post-production using **DaVinci Resolve Studio**.

Digital Systems & Website Management · 8+ websites managed

- Website development and management, **SEO, digital presence, content systems, deployment, business workflows, n8n automation, AI-assisted workflows, and practical operational systems**.

INTERNSHIPS & TRAINING

BHEL, Visakhapatnam · Industrial Training

- Hands-on exposure to industrial engineering and workplace systems.

Ahalya Industrial Pvt. Ltd., Visakhapatnam · Renewable Energy Workshop · 2024

- Practical workshop exposure to solar and wind energy systems.

HMIESS Solutions Pvt. Ltd. / APSCE · MATLAB Industrial Internship · 2025

- Industrial training focused on MATLAB and applied technical work, in collaboration with Andhra Pradesh State Council of Higher Education.

EDUCATION

B.Tech in Electrical & Electronics Engineering — Andhra University, Visakhapatnam

Currently pursuing · Final year

Diploma in Electrical & Electronics Engineering — M.R.A.G.R. Government Polytechnic, Vizianagaram

SKILLS & TOOLS

Creative & Post-Production — DaVinci Resolve Studio · Fusion · Video Editing · Color Grading · Colorist · Motion Graphics · Audio / Sound Post

Web & Product — React · Node.js · TypeScript · Web Development · UI/UX · Website Management · Deployment

Digital Systems & Automation — SEO · Technical SEO · Sitemaps · Structured Data · Digital Presence · n8n · Workflow Automation · AI-assisted Workflows · Business Systems

Engineering — MATLAB · VLSI Circuit Design · Electrical & Electronics Engineering

Working Strengths — Strategic Thinking · Systems Thinking · Automation Thinking · Problem Solving · Time Management · Adaptability · Continuous Learning

INTERESTS

Biohacking & human optimisation · anti-aging science · mitochondria and cellular energy · lifestyle and human physiology · psychology · solar/wind energy systems · software experiments · AI and automation.
